Our Values and Beliefs

All staff and students strive to create a safe and welcoming environment in our learning spaces, hallways, washrooms, playgrounds, and school buses.

These shared values of kindness, respect, and empathy provide a framework for our interactions with students and each other.

As a team of learners, we believe that positive, respectful relationships with our students are essential. A safe learning environment that allow students to have a voice and choice leads to high engagement and buy-in.

We feel that instruction should be differentiated and based in best practice. Teachers are the facilitators of learning, and collaboration between all members of the school community is key to ensuring students receive the best care.

Our School

Warren Elementary School is a Kindergarten to Grade 8 school with a current enrolment of 178 students. With 13 professional staff, 14 support staff, and 5 bus drivers we provide quality public education to all students in a safe, positive, and respectful setting. Our staff strive every day to meet the needs of all members of our school community.

Our Goals

2023-2024 goals were centred around 3 focus areas: Literacy, Numeracy, and Well-being

Literacy- To continue to develop our structured literacy program, with emphasis in our Grade 3 and 4 classrooms, while Kindergarten, Grade 1, and Grade 2 classrooms maintain or further develop strategies implemented the previous school year.

Numeracy - To increase student confidence with Rational Operations while implementing NAP MRLC curricula programming.

Well-being - To provide students with strategies and knowledge that will support them in regulating their emotions in various contexts

Literacy -

We purchased materials to support letter and sound recognition in Early Years classrooms and significantly boosted our selection of decodable texts for home reading and classroom instruction. Our Early Years staff participated in structured literacy focused PD opportunities through the ISD continuous improvement plan literacy sessions.

Numeracy -

Our Early Years classrooms created opportunities to practice "hands-on" Math and found examples of Math concepts in our daily lives. Middle Years teachers organized their numeracy lessons to conform with the NAP program, which included changing the order of units to better support how students learn math. Our Middle Years staff participated in numeracy focused PD opportunities through the ISD continuous improvement plan numeracy sessions.

Wellness -

As a staff we focused on classroom and school-wide community building. Our goal was to establish a culture of kindness and caring within our school. We created opportunities for our Middle Years students to be role models and supports for our Early Years students.

We are continuing to move towards a better awareness of "self-regulation," by providing students with strategies on managing emotions and resolving conflicts in a healthy manner.

Our Progress

Our Thanks

We would like to thank our entire school community for their support during the 2023-2024 school year. With your support, we were proud to offer our students an excellent academic program in addition to valuable extra-curricular experiences.

We are excited for the upcoming school year. As we look forward to next September, our school goals will focus on being accessible, equitable, and responsive.

Take care and have a safe and enjoyable summer!
